

PLEASE PROVIDE THE REQUESTED INFORMATION:

1. SCHOOL INSURANCE

It is the responsibility of each student and/or the parent or guardian to have accident insurance coverage that complies with one of the following (**check one**):

- 1. A family insurance plan obtained by the parent/guardian
- 2. A school insurance plan obtained by the pupil through the home school
- 3. No general liability insurance. Please complete waiver below.

WAIVER

I am the legal guardian of _____. I have chosen not to obtain general liability insurance coverage for him/her through a private insurance company or through my child's home school. Therefore, I hereby waive any cause of action against R. G. Drage Career Technical Center and/or its employees and/or their insurers on behalf of my child and his/her parent in the event of injury to my child which would have been ordinarily covered under the terms of standard general liability insurance policy.

(Signature required only if Option 3 is checked)

2. FIVE DAY POLICY

Sophomores who apply and are accepted in an R. G. Drage Career Technical Program have until the last student day of the current school year to withdraw from the program to which they have been accepted. Someone from the waiting list will then be called to take that spot.

After the end of the current school year, students will be expected to complete five days at the start of the next school year at R. G. Drage before being given the opportunity to return to the home school. **No requests to withdraw will be honored during the summer months.**

Failure to attend R. G. Drage for the first five days will result in unexcused absences. Extreme circumstances will be considered.

September 15th is the deadline for changing programs or initially enrolling in a Drage program unless a student is transferring from another career tech program of the same nature. CBI and Career Exploration are exceptions to this rule.

We have read the policy, and we understand the policy.
