

Pathways to earn 15 or 30 credit hours at R. G. Drage Career Technical Center

- The state of Ohio requires each school district to create an optional pathway for students to earn 15 or 30 credit hours of college credit with a partner college.
- Our college partner is Stark State College and listed below are the possible courses a student could take to earn credit hours.
- Students must meet admission and eligibility criteria to enroll in the course. Further details are available in the R. G. Drage Guidance office.
- With careful planning, students may earn up to 30 college credits that can be applied toward a certificate and/or degree program at Stark State College.

The tables below offer three options for a 15 or 30 hour pathway. All courses are offered through Stark State College at R. G. Drage Career Technical Center.

Suggested 15+ Credit Hour Pathway (Associate of Applied Business)

Stark State College Course Title	SSC Course Code	SSC Credit Hours	R. G. Drage Course Title	R. G. Drage Credits	Location
